MAKING MOVES

Introducing:

Anthony Murphy
MRICS

Role: Director

If we were playing top trumps, what would be your top 3 skills?

Making Friends
Solving Puzzles
And bringing up the average height of the team

And...

Mo Basma

Role: Senior Business Developer

If we were playing top trumps, what would be your top 3 skills?

Negotiating
Making Friends
Fact Finding

MOVES WE'VE MADE

Congratulations to all of our clients who we have moved this quarter. These include...

Quandoo

goat   **Bluefield**

busuu

TENZING NATURAL ENERGY   **make it cheaper** the saving experts

WHAT DID WE GET UP TO?

Tobi Crosbie, CEO & Founder

What an exciting quarter this has been with two new starters joining the Making Moves Team. Mo has joined our Business Developers, whilst Anthony has come onboard to strengthen our already strong team of Move Makers.

Myself and Ollie also took part in running the Hackney Half Marathon on behalf of a local charity ecoACTIVE who carry out sustainability projects in the Hackney area. A great cause and a pleasure for us to be giving something back to the local community.

INSIDE MAKING MOVES

In May 2018, Startups.co.uk published their annual Startups 100 list which ranks the UK's "most awe-inspiring and fast-growth potential new businesses launched in the last three years"... and Making Moves came in at number 38!!

startups 100 2018

As a specialist in advising startups and high growth clients, as well as a startup ourselves, being part of the list is a fantastic achievement. Read more here.

LONDON'S STARTUP HOTSPOT:

WHITECHAPEL
A stone's throw away from Shoreditch, Whitechapel offers a much more cost-effective alternative, and we are beginning to see some big names make their way down there. It is soon to benefit from a £90m mixed-use regeneration scheme close to its Crossrail station as well as 564 new homes and 38,000 sq ft of commercial space including flexible office space for start-ups and SME's, a gym and a café in a newly landscaped public square.
